

Board of Directors

Roles & Responsibilities

Bike & Build envisions future generations of civically engaged citizens, investing in their education, experiences, and communities to make lasting and positive impacts. Bike & Build typically runs cross country and regional cycling trips that engage young adults in the affordable housing cause and empower them for a lifetime for civic engagement, all while on the adventure of a lifetime.

Going into our 18th year, Bike & Build is shifting our focus in light of the COVID-19 era as we think about how to achieve our mission outside of our traditional cycling trips. As we lean into civic engagement, advocacy, service learning, and diversity, equity, and inclusion efforts, we are seeking additional Board members to support this growth.

Board Responsibilities:

The Bike & Build Board of Directors is responsible for the oversight, direction and resources of the organization. Directors ensure that Bike & Build remains committed to our mission, sets policies and procedures for the organization, and provides insight and oversight to financial matters.

Each board member commits to:

- Attend and actively participate in monthly board calls, including two in-person meetings each year in Philadelphia
- Participate actively in at least one Board Committee
- Serve as an ambassador for Bike & Build by utilizing your individual networks and community to communicate the work Bike & Build is doing
- Make a personal contribution to Bike & Build each year by contributing or raising \$500 annually, and assist the organization in fundraising efforts
- Dedicate 3-5 hours per month to Bike & Build Board activities

What we're looking for:

Bike & Build is looking for board members who are excited about the work Bike & Build has done for the past 18 years, and energized about the future growth of the organization. Bike & Build is based in Philadelphia, yet our riders pass through so much of the country, and our alumni network and community reaches across the globe. At this time, we are looking for individuals with the following background and experience, but would love to hear from you even if your skills don't fall within this list:

- DEI Initiatives
- Fundraising
- Recruitment / Marketing
- Accounting / Finances
