EcoDevo works to promote economic and population growth throughout the County by assisting our local businesses, engaging in community activities, and promoting Stafford County as a great place to live, work and play.

**PROJECT**

Projects will include assisting in building 4-10 affordable houses in the coming year, marketing to underserved populations, volunteering with community development organizations, and planning a community pride and cleanup day.

Hours: Mon - Fri (35 hrs/wk)

**COVID PRECAUTIONS**

Social distancing has been a significant part of the strategy here to mitigate the spread of COVID, our office allows for people to work in separate areas and much of the work related to this is outdoors. When we are in close contact, we wear masks.
